9th All African
Conference
on Animal
Agriculture
2026

Theme:
Repositioning Animal Agriculture for Africa's
Food Security and Global Competitiveness

His Excellency
ÉVARISTE NDAYISHIMIYE
PRESIDENT OF BURUNDI
Chairman African Union

Layer Mash, Crumble And Pellet

More Eggs. More Profit

Product Benefits

- Promotes rapid egg production
- Ensures stronger eggshell quality
- Supports extended period of egg production

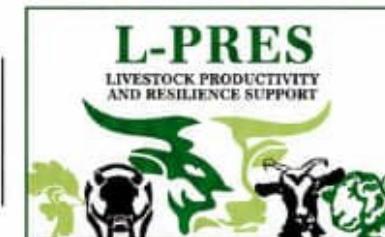

Usage: For all laying birds

**Achieve a
minimum of 2.2kg
in 35 days.**

Don't short change your birds!
Feed them the L-Gold 3-in-1 rations.
For balanced nutrition, excellent growth, and tasty meat.
...confam padi for your broiler chicken.

His Excellency
BOLA AHMED TINUBU, GCFR
PRESIDENT
FEDERAL REPUBLIC OF NIGERIA
Chief Host

L-PRES

LIVESTOCK PRODUCTIVITY AND RESILIENCE SUPPORT PROJECT

The Livestock Productivity and Resilience Support (L-PRES) Project is a World Bank-supported initiative of the Federal Ministry of Livestock Development aimed at improving livestock productivity, commercialization, and resilience through strategic investments in infrastructure, technology, animal health, pasture development, value chain enhancement, and institutional capacity strengthening.

PROJECT DEVELOPMENT OBJECTIVE (PDO)

To improve productivity, commercialization, and resilience (including resilience to climate change, environmental degradation, and herder-farmer conflict) of targeted livestock production systems in Nigeria.

**SUPPORTING SUSTAINABLE
LIVESTOCK DEVELOPMENT.
BUILDING RESILIENCE.
IMPROVING LIVES.**

L-PRES KEY ACTIVITIES

- Pasture and fodder development and improved rangeland management
- Livestock water infrastructure and climate-resilient water systems
- Animal health services and disease control
- Breeding improvement and livestock productivity enhancement
- Feed processing, mechanization and value addition
- Livestock market and value chain development
- Institutional strengthening, capacity building and knowledge sharing
- Climate-smart and resilient livestock production systems

**SUSTAINABLE
PASTURE MANAGEMENT**

**IMPROVED
ANIMAL NUTRITION**

**MECHANIZED
VALUE ADDITION**

**TRANSFORMING NIGERIA'S LIVESTOCK SECTOR
THROUGH INNOVATION, INVESTMENT AND RESILIENCE.**

PREMIUM BROILER

"We've Raised the bar - Now Your Birds Will Too."

INTRODUCING

BROILER GROWTH AND FEEDING DATA TABLE:

AGE (WEEKS)	FEED CONSUMED PER BIRD (G)	CUMMULATIVE FEED (G)	FCR	AVG. BODY WEIGHT (G)
1	180 - 220	220	0.75 - 1.0	180 - 220
2	340 - 380	520 - 600	1.1 - 1.15	480 - 520
3	600 - 680	1,120 - 1,300	1.25 - 1.30	900 - 1,100
4	900 - 950	2,020 - 2,250	1.35 - 1.39	1,500 - 1,600
5	1,000 - 1,200	3,020 - 3,450	1.40 - 1.57	2,000 - 2,200

Designed for excellent performance, profit, and precision feeding.

Consistent weight gains and superior Feed Conversion Ratio (FCR).

Higher nutrient density with optimized amino acid balance and improved digestability.

Built for farms that operate as businesses.

Performance benchmarks: 2.2kg at 35days, 1.4FCR, and <2% mortality.

IDI MUKHTAR MAIHA, fnim
HONOURABLE MINISTER
FEDERAL MINISTRY OF LIVESTOCK DEVELOPMENT

Host

EZENWO NYESOM WIKE CON
HONOURABLE MINISTER
FEDERAL CAPITAL TERRITORY (FCT)

STOP FEEDING YOUR PROFITS TO THE GRAIN MILL!

Maximize your flock's genetic potential and lower feed costs per ton by combining local raw materials with Rubitrix Precision Concentrates.

High-Performance Flagship Concentrates

Superior Feed
Conversion Ratio (FCR)
for faster weight gain

Sustains longer peak
laying rates across
flock life-stages

Reduce feed costs
and increase profitability
with higher performance

We deliver scientifically formulated nutrition solutions that enhances livestock health and maximizes farm profitability

TAKE CONTROL OF TRANSMISSION

Vectormune[®]
ND

**Vectormune[®] ND is the proven reference for
the reduction of Newcastle disease transmission.**

Whatever your situation; Vectormune[®] ND
protects your performance against lentogenic
and velogenic strains, thanks to the best in
class transmission control!

Securidium (6.2g) is a veterinary
powder/granular medication containing
Isometamidium chloride. It is primarily
used to prevent and treat Trypanosomiasis
(sleeping sickness) in livestock.

ACTIVE INGREDIENT:

Isometamidium chloride..... 1g
Excipient (antipyrine)..... 6.2g

**The gold standard for gut health -
lower feed costs, high perfor-
mance, and much more.**

Supporting your livestock's well-being protects your business. Over decades, we have conducted science-based research in the field of animal health and nutrition. The result: a comprehensive Gut Health Concept for broilers, layers and swine which focuses holistically on the interplay of feed, nutrition, and gut.

Ask for our Ecobiol® PRO, Ecobiol® PRO Fizz or SpeoCare® T60 gut health product portfolio.

BECAUSE
IT'S
ABOUT **65**

Discover
the new
MetAMINO®
ATLAS

Trust in science. Trust 65.

We can guarantee that 65 units of MetAMINO® will achieve comparable performance* to 100 units of Methionine-Hydroxy-Analogue-Free-Acid. Other than MHA-FA, dry crystalline MetAMINO® is directly digestible and 100 % bioefficacious. It enables superior meat yield and feed conversion while offering easier handling and dosing. In this way, the global demand for milk, eggs, meat and fish can be met.

Scienicing the global food challenge™
evonik.click/metamino

MetAMINO®

* For references and the proposition of the guarantee, please contact us or visit our website.

BECAUSE IT'S ABOUT

PRODUCTIVITY

Fully charged, healthy growth!

Evonik GuanAMINO® is the best precursor for creatine in poultry feeds, ensuring optimized energy availability. Furthermore, it works towards an optimized amino acid and energy metabolism. GuanAMINO® supplementation enables full growth potential in broilers, and leads to higher income over feed costs for poultry farms.

Agriculture
2026

Theme:
Repositioning Animal Agriculture for Africa's
Food Security and Global Competitiveness

DAY ONE: Sunday, 9th August 2026

All Day: Arrival of delegates at designated hotels

02:00 - 6:00pm: Registration & Accreditation - Conference Venue

06:30 - 8:00pm: Welcome Cocktail & Networking - Conference Venue

DAY TWO: Monday, 10th August 2026

08:00 - 09:00am: Registration Continues

09:00 - 11:30am: Opening Ceremony

09:00 - 11:30am Opening Ceremony	Programme Item	Resource Person
	National Anthem	
	Welcome Address	Prof. Mizeck Chagunda - Acting President, All Africa Society for Animal Production (AASAP)
	Brief on the 9th AACAA	Dr. Chinyere Ijeoma Akujobi - Permanent Secretary, Federal Ministry of Livestock Development
	Address by the Host	Idi Mukhtar Maiha - Hon. Minister, Federal Ministry of Livestock Development
	Goodwill Messages	Partners - Spe. Asst. to the President on Livestock Devpt, FMAFS, L-PRES, NIAS, VCN, ASAN, NVMA, NSAP, GIZ, USDA, USSEC
	Keynote 1: Innovating Africa's Livestock Systems for Resilience, Food Security and Global Competitiveness	Prof. Appolinaire Djikeng - Director General, International Livestock Research Institute, Kenya
	Award to H.E. President Bola Ahmed Tinubu, GCFR	All Africa Society for Animal Production
	Cultural Entertainment	Cultural troupe
	Declaration of Conference Open	H.E. President Bola Ahmed Tinubu, GCFR President of the Federal Republic of Nigeria
	Vote of Thanks	Prof. Grace Jokthan - Chair, 9th AACAA LOC

11:30 - 12:30pm Group Photographs, Tea Break & Exhibition Opens

3:30 - 4:15pm	Presentation of Conference Communique & Closing Ceremony								
4:15 - 5:30pm	AASAP Annual General Meeting (AGM)								
6:30 - 8:30pm	Gala Dinner & Cultural Night Theme: Celebrating Africa's Livestock Heritage Chair: Chief Simeon Ohwofa - President, NIAS, Abuja								

Optimal nutritional bundle. Better animal performance. Maximum value.

The ultimate value of soybean meal is measured by more than just crude protein, and this value varies by country of origin. U.S. soybean meal provides the highest-quality and most sustainable option on the market with its comprehensive nutritional bundle comprised of four key drivers:

- Whole soybean quality
- Consistency
- Amino acid profile
- Energy content

Ultimately, this combination delivers better soybean meal resulting in improved feed formulation consistency, better animal performance, and superior overall value to your bottom line.
